Tragend ohne aufzutragen,  
sichtbar ohne dominant zu sein.  
Die flächige Gestaltung verleiht  
das richtige Maß an Gewicht.

A strong, silent type that makes  
its presence felt – but doesn't  
hog the limelight. The slim de-  
sign lends just the right amount  
of sturdiness to your concept.

Ein Akkord, der seine Auflösung findet. Die dynamische Form der geschwungenen Linienführung setzt selbstbewusst einen Akzent.

A resolved chord. The dynamic, self-assured shape of the curved linear design makes a real impact.

Die Zeitlosigkeit des Besonderen.  
Die konvexe Form schafft Aufmerksamkeit und besticht doch durch Reduktion auf das Elementare.

The timelessness of something special. The convex shape draws your attention and yet impresses with its stripped-down approach.

Von der Klassik inspiriert und doch im Heute verankert. Die geschwungene Linienführung, kombiniert mit engen Radien, vermittelt großzügige Eleganz.

Inspired by the classics - but truly a piece for the modern world. The combination of a curved linear design and narrow radial shapes makes a huge statement of elegance.
