EASY-Box

Made by professionals
for professionals

The new EASY-Box

Ideal Standard leads the way with built-in advanced technology **for all installation possibilities.**

Ideal Standard has perfected its built-in installation technology in cooperation with a group of experts.* The new modular built-in EASY-Box leaves no room for further expectation. Thanks to its **FAST-FIX** mounting concept, installation is exceptionally easy and, above all, flexible. The **DICHT-FIX** waterproof system provides triple protection against water penetration both internally and externally, ensuring optimum sealing against damp. Choose between a single-lever mixer and a thermostat. Also available as an intrinsic safety version according to DIN EN 1717 standards (protection against pollution of drinking water systems) with a bathtub outlet safety device.**

It also meets DIN 4109 (sound insulation in high-rise buildings) noise control category I standards.

+

Complies with the following norms and directives:
- DIN 4109 sound insulation in high-rise buildings, noise control category I.
- DIN 1988-compliant pipe flushing.
- Protects brickwork from damp.
- DIN EN 1717 with intrinsic safety models.**

functionality

* Ideal Standard would like to thank all the experts and trade professionals who actively supported the development of EASY-Box.
** Only in conjunction with Ideal Standard connections.

Kit 1

Flexible basic built-in unit.
The small basic built-in unit is
extremely flexible and adapts
to all types of installation.
Installation is effortless and
requires no special tools.
Bath/shower fittings and
single thermostats can be
mounted on the basic unit.

Flushing device

Inbuilt spirit-level
holder

Grooves

Adjustable mountin feet

Protruding connections

Kit 2 Kit 2 consists of a function built-in unit and visible design parts.

Function built-in unit:
features technology
specific to each model.
Cartridge, switching device,
check valve, shut-off device
(inbuilt on thermostats,
optional on single-lever mixers)
and inbuilt gaskets - this unit
offers it all! Also available
as an intrinsic safety version
(only in conjunction with
Ideal Standard connections).
Thermostat
Long-lasting thermostat cartridge,
side valves for pre-shut off with
non return valve and DICHT-FIX.
Single-lever mixer
Choose between a bath and shower
or shower fitting with CLICK-cartridge,
hot water temperature control, ECO-
function and DICHT-FIX.

+

Visible design parts:
stylish fittings ranges.
The function built-in units
can be combined with
more than 30 fittings,
offering total flexibility
in design choice.

Shower single lever

**Bath and shower
single lever**
Thermostat

FAST-FIX
The innovative fixation concept

FAST-FIX fixation concept ensures simple,
effortless installation in every mounting possibility.

Grooves
The grooves facilitate trimming of the protruding parts of the box.
Pipe connections
The protruding connections facilitate the pipe attachment without needing any extension.

Fixation feet
The fixation feet enable simple mounting and progressive depth adjustment (up to 22 mm variation in the unit, plus 35 mm with the feet).

Cover
The cover contains a short installation guide and an integrated spirit-level holder to facilitate alignment of the EASY-Box.

Support
The optimised spirit-level holder enables accurate and reliable positioning both horizontally and vertically.
Fixation holes
The conveniently-positioned holes facilitate mounting in all installation positions.
Flushing device
Loosening the internal hexagonal screw, the flushing device is released from the brass cross joint.
Installation possibilities

In-wall installation.

On-wall installation.

In-front-of-wall installation.

Installation on pre-carrier systems.

Installation on prefabricated cells.

DICHT-FIX
100% waterproof

The time-tested DICHT-FIX waterproof system has been further developed and now provides triple sealing for concealed units.
On-wall installation. Connect the pipes.

Fix sealing fabric on ready plastered and pre-treated wall.

Rinse pipes using a pre-assembled flushing device.

Trim the protruding part of the box, turn off the water and disassemble the flushing device.

Assemble the function unit (thermostat or single lever body) from Kit 2 and verify watertightness.

Slide the plate support over the cartridge and the diverter and screw into the right position. Then mount the visible design parts.

READY! EASY-Box combines modern design with advanced technology!

**External waterproof – protection against splashing:** the plate support protects the EASY-Box externally from splashing water. All openings are individually and reliably sealed.

External waterproof – sealing fleece: the sealing fabric replaces the former sealing frames and prevents water from soaking in.

Internal waterproof - inlays: additional sealings around the protruding pipes prevent any water from soaking from the EASY-Box into the wall.

Intelligent solution – squirted sealings: the plate support is manufactured in a 2-component die-casting process. Direct injection moulding ensures that the joints remain perfectly watertight.
Structure sealant

The most important issue, particularly for built-in installations, is to ensure that the brickwork is well sealed against water and dampness. When showering, no water should penetrate the wall e.g. through the gaps between the tiles. Therefore, the relatively large openings in the wall which hold the built-in unit's technology must be particularly well sealed.
EASY-Box enables carefree showering enjoyment!

Variable installation depth
Between 73 and 95 mm

The Kit can be adapted to various depths without any difficulty.
Additional depth adjustment (5 – 40 mm) is possible thanks
to the variable height adjuster. For excessively deep installations,
special distance frames and extension sets are available.

Flow rate

Accessories

|				
Intrinsic safety model variants:	**Shut-off devices for single-lever mixers:**	**Cartridge for inverted connections:**	**Distance frame for installations which are too flat:**	**Extension set for installations which are too deep:**
For item code number see model overview.	A960706NU.	EHM: A963462NU. Thermostat: A963606NU.	A960705AA.	A960704NU.
Unlimited possibilities

The Ideal Standard EASY-Box concept is continuously being expanded and is the universal built-in solution for the future. It can be combined with more than 30 different fittings for maximum flexibility.
+

Complies with the following norms and directives:
DIN 4109 sound insulation in buildings, noise control category I.
DIN 1988 flushing of pipes in compliance with standards.
Protects brickwork from damp.
DIN EN 1717 with intrinsic safety models.*

functionality

Kit 1 – EASY-Box

Basic built-in unit for wall installation:
G1/2 protruding connections, 4 height adjusters with locking devices (FAST-FIX), 1 flushing block and 1 stopper, sealing fleece, assembly instructions.
